**RESPONSE**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In response to the Office Action dated January 29, 2004, reconsideration and allowance of the present application are respectfully requested in view of the following remarks which are believed to satisfactorily respond to the Examiner's request for clarification.

The applicants continue to respectfully traverse the rejection of claims 7, 9-12 and 17-22 under 35 USC 103(a) over Sakaki et al. in view of Kasahara et al. The cited references do not make the presently claimed invention to be obvious.

The present Office Action states at page 3, lines 11-15, that:

"Sakaki and Kasahara are analogous art because they are from the same field of endeavor that is the ink jet recording art. At the time of the invention, it would have been obvious to a person of ordinary skill in the art to combine the fumed silica of Kasahara with the invention of Sakaki in order to enhance the glossiness, film strength and porosity of the layer (see col. 7, line 59 of Kasahara)."
